

Kumar R U Bharti

Software Developer (React / Next.js)

+91 83404 41298 — kumarrubharti.rtcit@gmail.com — linkedin.com/in/kumar-r-u-bharti

Professional Summary

Software Developer with 3+ years of experience building high-performance, scalable web applications using React.js and Next.js. Proven expertise in TypeScript, Redux Toolkit, React Query, and modern frontend architecture. Delivered production systems serving 10,000–50,000+ users with measurable improvements in performance, accessibility, and reliability. Experienced in owning features end-to-end, mentoring developers, and collaborating in Agile product teams.

Core Skills

Frontend: React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), Redux Toolkit, React Query, Tailwind CSS, ShadCN, Material UI, HTML5, CSS3, GSAP, Framer Motion, React Three Fiber

Backend: Node.js, Express.js, PostgreSQL, MongoDB, Firebase

Architecture & Performance: Frontend System Design, State Management, SSR/CSR/ISR, Web Performance Optimization, Accessibility (A11y), SEO, Responsive Design

Testing: Jest, React Testing Library, Unit & Integration Testing

DevOps & Tools: Git, GitHub, Bitbucket, Docker, CI/CD Pipelines, Vercel, Netlify, Postman, Jira

APIs & Others: REST APIs, GraphQL, Authentication (JWT/RBAC), SDLC, Security Best Practices

Professional Experience

Frontend Developer — Swipewire Technologies, Chennai Jul 2025 – Present

- Owned and developed scalable SaaS frontend features using React.js, TypeScript, and React Query, improving data retrieval performance by **60%**.
- Designed and implemented high-performance UI animations using GSAP, Framer Motion, and Three.js, increasing user engagement by **30%**.
- Integrated **50+ REST APIs** and optimized data flows, reducing page load time and improving application stability.
- Led Agile sprint execution, performed code reviews, and collaborated closely with backend, QA, and product teams to ensure timely delivery via CI/CD pipelines.

Software Developer — Gtropy Systems Pvt. Ltd., Delhi Jan 2024 – Feb 2025

- Built and maintained real-time IoT dashboards using React.js and Node.js, serving **10,000+ active users** with high system uptime.
- Refactored legacy components and optimized frontend logic, reducing bug resolution time by **30%**.
- Collaborated with backend teams to improve API efficiency, scalability, and frontend-backend integration.

- Reduced technical debt by **25%** through reusable component architecture and consistent code quality practices.

Software Developer — Aadrika Enterprises, Ranchi

Aug 2022 – Dec 2023

- Delivered government digital platforms supporting **50,000+ citizens** with secure, responsive, and accessible interfaces.
- Mentored and guided **15+ interns** on React.js best practices, UI principles, and code standards.
- Improved application performance and security, achieving a **20% overall efficiency gain**.
- Developed modular UI components using React.js and Redux Toolkit, reducing development time by **15%**.

Key Projects

Vahan Shakti — Fleet Management Platform

- Architected a React-based platform serving **30,000+ users**, reducing system load time by **35%**.
- Implemented role-based access control (RBAC), GPS tracking, and real-time monitoring features.
- Automated operational workflows, reducing manual effort by **40%**.

Property Tax Management System

- Built dashboards and portals for **50,000+ users** (JUIDCO & AMC), improving data visibility and user satisfaction.
- Implemented multi-level RBAC, secure authentication, and verification workflows.
- Modernized UI/UX, improving user engagement by **35%** and reducing friction.

Education

B.Tech in Information Technology

RTC Institute of Technology, Ranchi

2018 – 2022

CGPA: 8.23
